

# Bug Book Folding Directions

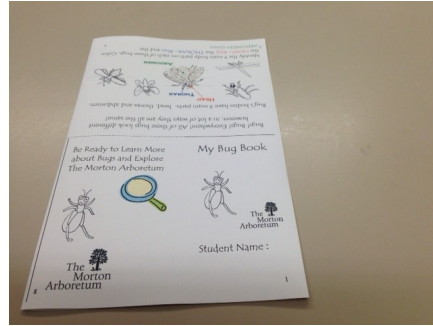

Print the Bugs Abound Pre-Activity Vocab Book. Copy enough for your students and follow the directions below to assemble each book. Each of the pages in this book emphasizes the vocabulary and concepts for your program. Students can color and decorate their books.

1

Place paper in front of you (Landscape).

2

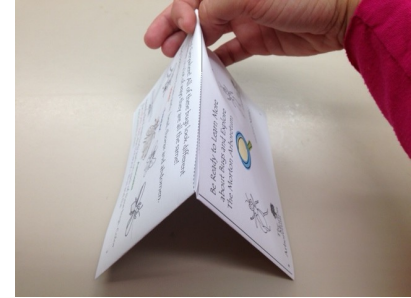

Fold Paper in 1/2 across— Left to Right. Keep the printed side facing on the outside of your fold.

3

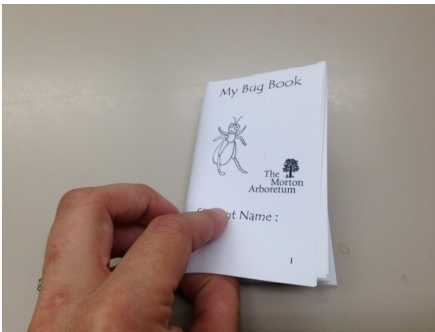

From the fold, cut along the dotted line., stopping at the solid line.

4

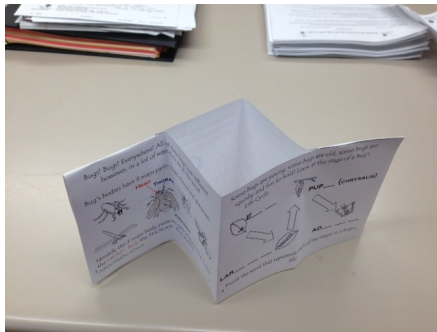

Fold in 1/2 on the line you just cut (folding down).

5

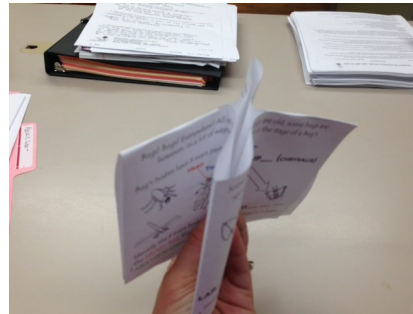

Fold in 1/2 left to right (twice) so that you have 1/8 size of the paper.

6

Open the paper so that it is folded in 1/2 (top bottom) and you can see the square that your cut on the fold makes.

7

Push the sides in so that the open square disappears and you are left with a cross shape with the opening in the middle.

8

Fold in 1/2 across to finish your book. You should have an 8-page book with "My Bug Book" as the Cover.
